

#MoodboardBook 3

2020 Edition

For our moodboards we drew inspiration from the world of creatives and how they brainstorm their imagination to come up with something wonderful. We wanted to give you a valuable source of ideas for your interior projects.

Contardi sartorial approach and highly decorative lights lend themselves well to this exercise where colours, materials, design, fashion, art and everything we like come together to stimulate your creative flair.

We hope that you will find them useful and love them as much as we enjoyed creating them thinking about their viewers.

The Contardi team

Muse OUTDOOR

The collage illustrates the 'Muse OUTDOOR' lighting fixture in various settings. The top left shows a woman in a white dress on a beach. The top right shows a close-up of the hexagonal light fixture. The middle left shows a modern outdoor lounge area with a white sofa and cacti. The middle right shows a wooden deck with palm trees. The bottom right shows a color palette with four circles (dark teal, light teal, grey, light beige) and material swatches for fabric and paper.
